

Product Description

MARKET USE:

Vine Cranberry Bean

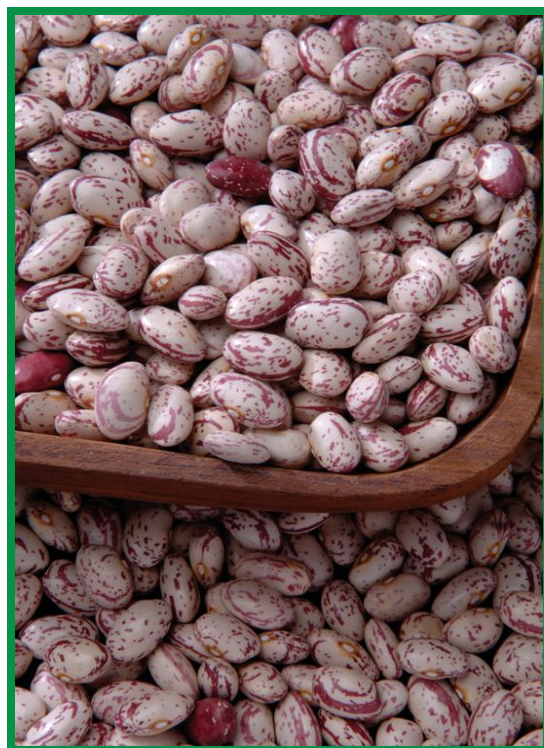

CHIANTI

US PVP Certificate No. 200500106

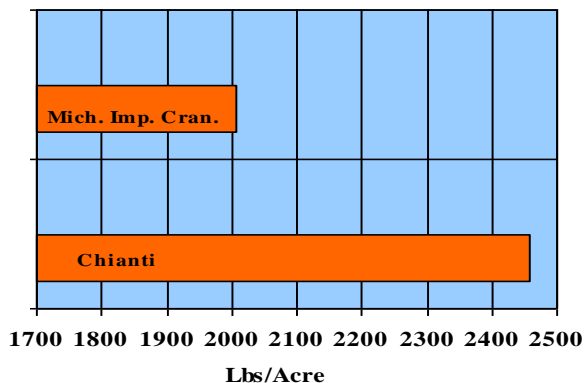

Features

- Early-Vine Cranberry Bean - 94 Days
- More Consistent Yields compared to MIVC
- Improved Plant Habit
- Higher Canned Quality Than Bush Types
- “P” Gene Resistance to BCMV

CHIANTI, formerly EX 08530759, is a new upright vine cran that provides improved yields & consistency with excellent processed quality. The 94 day maturity allows for growing in shorter season areas. Compare also to bush crans such as SVM Taylor in stress environments.

Michigan Dry Bean Trial Data 2002-2003

2002-2005 Michigan Dry Bean Trial Data

	Yield	Quality	Maturity
Chianti	2229	5.6	94.9
SVM Taylor	2153	3.1	88.8
